

„The Spanish emotion, passion and its expressiveness combined with the bright colors of Barcelona inspired me. This was the starting point of LOREMO and the idea of coLOREMOtions.“

*Founder LOREMO - Franziska Scheuerle*

LOREMO has its origins in Barcelona. The hometown of the artist Pablo Picasso. The city of endless freedom, creativity and passion. The city of millions of different shining colors. The city of pure inspiration for every artist. The city where a work of art embodies a poem without words.

With the abstract artworks of LOREMO, we would like to awaken exactly this joie de vivre and this positive attitude towards life in you. Modern, expressive and sophisticated.

Each piece is individually handcrafted and carries within both - the energy of the artist and the artistic concept that it embodies in its perfection.

As a link between the artist and the customer, LOREMO, as a modern art label, offers for the first time a platform that brings together the uniqueness of an artwork with your own distinctive character in order to create something very individual and personal.

*Your Colors.  
Your Style.  
Your Art.*

Colors are the mirror of the soul. Colors help strong personalities to express themselves individually by underlining the style of their unique character.

At LOREMO, we want to bring more color into your life by creating bespoke abstract, statement artworks - matching in SIZE (canvas size), COLORS (color code) & STYLE (painting style) to suit your personality and interior design.

You don't have much time? No problem! With only few clicks you can create your desired parameters at LOREMO in a time-saving, quick and easy way, in order to have your personal unique piece of art painted by our artists to match your interior color code.

If you are still unsure which colors fit into your interior, our trained and experienced color and design experts will be happy to support you to find the right colors through an individual digital colour and style consultation.
